GPS antennas for demanding requirements

QHT-20 Quad Helical Twist-On Stubby GPS Antenna 25dB

| | |
|------------------|--------------------------|
| Element Type | Quadrifilar Helix |
| Center Frequency | 1575MHz |
| Beam Width | >120 degrees |
| Impedance | 50 ohm |
| Polarization | RHCP |
| Voltage | 2.5-3.3Vdc |
| Current | 5.2mA |
| Gain | 25dB @ 3Vdc |
| Noise | < 0.8dB |
| VSWR | <2:1 |
| Dimensions | 15 (D) X 66 (L) mm |
| Connector | SMA male |
| Color | Black (others available) |
| Submersible | 50m (no gasket required) |
